## MARKET STEADIER AT CLOSE OF WEEK

RAILROAD SECURITIES MANIFEST MORE STRENGTH

Extensive Covering Movement Marks the Final Part of Session; Bonds Steady.

NEW YORK, Aug. 15.—The opening of the stock market was awaited with considerable interest this morning ow-ing to the severe decline of yesterday. Reports that speculative pools had liqui-Reports that speculative pools had liquidated heavily and that market interests were selling were colored to some extent by the lack of support to special stocks. The market abroad, however, showed little reflection of the weakness vesterday and after early heaviness rallied so that when business commenced here the comparative changes were slight. This circumstance had an encouraging effect on the local speculation so that first prices were not altered much from last night's closing, though the tendency was downward. After a few minutes the bulls began to buy cautiously, and as they met no

After a few minutes the bulls began to buy cautiously, and as they met no important pressure of stocks grew bolder, and soon had a large portion of the list ruling a substantial fraction above yesterday's closing. American Smelting, Southern Pacific and Rock Island were in special demand, the reassuring statement recording the lists and the second statement and the second secon statements regarding the latter road's financial obligation having a tonic effect upon the list. The railroads' activity, however, terminated when the traders perceived that stocks were being fed out as fast as the market could take

The professionals then ranged themselves on the short side and hammered the list energetically, especially the metal group. American Smelting broke rapidly to 90½, a loss of nearly 3 points, the decline being accelerated by the execution of large stop-loss orders. Amalgamated was also conspicuously weak and large sales drove United States Steel down to 44. The general railroad list, meanwhile, offered good resistance at various points, but Union Pacific had an interval of decided weakness when it sold down to 154½. In the final dealings there was a general covering movement of extensive proportions, which reduced general losses to a trivial fraction and advanced St. Paul to a point above yesed St. Paul to a point above yesterday's closing.

Lasi week's official statement of the New York Associated banks, again as was the case in the previous week, showed more or less important differences between the average and actual cash holdings, and also in the items of leans and deposits. The average gain in cash was 21 per cent, while the increase was \$5.814.000, the latter, however, closely approximated the amount that was estimated upon the basis of the traceable movements of money during the week.

It seems probable that the differences in cash in a great part was due to withdrawals by trust companies of about \$2,500.000 to reinforce their cash in vaults. It is noteworthy that whereas in previous years the banks have disclosed a loss on the inter-bank movement—the result of withdrawals incident to the requirements for crop deliberation—these instances last week recorded a gain which, though small, seems to indicate that requisitions from the interior have not yet begun. The actual gain in cash, as above noted, was chiefly due to breaze-ury operations with the banks. The actual increase in reserves was \$1.574.275 to \$55.113.225, computed upon the basis of deposits, less those of \$2.243.900 public funds, the reserve was augmented by \$1.975.500 to \$61.423.000. As is always the case on that particular day of the week, business was fairly active on the local market Saturday, and dealers reported heavy sales in almost all lines of catables. A marked improvement was manifest on the market of the markets, perhaps owing to the fall in the temperature during the last day or so.

The greatest demand Saturday, however, was for fresh vegetables, especially for pedatoes and cabbage. In wateremloss and cantialoupes, and oranges and binanas also met with a ready sale. Raspberries and blackberries were very scarce, and although there was no increase in the price, the housewife didn't seem inclined to purchase very much of the fruit, as it was not of a very good quality.

A small consignment of fresh fruit from the "Golden state" was received Saturday morning, and shortly after noon the dealers had it displayed on their respective stands.
